SUBJECT: Revised BINET Project Input Forms

In response to your helpful suggestions and comments, the BINET Project Input Form has been revised and simplified, and copies of the new form are enclosed. It was revised to make it shorter and easier to fill out, and to make it simpler for key-punching the information.

Please destroy remaining copies of the old form, and start using the revised enclosed form immediately.

Note that the two-digit Congressional District numeric code is now required for Items 11 and 16.

If you have old forms on hand completed and ready for submission, please transcribe them to the new form, or, if this is not feasible, send the old forms to BINET for transcription.

Write or call the BINET Staff at (202) 254-5180 for additional forms, or reproduce them locally. Any comments or suggestions on the revised form are welcomed.

Director, BINET
